### We make it simple...

The rapid advancement of computer technology has made it possible to bring a greater level of productivity into the home. Whether you simply use the computer for web browsing and word processing, or to run your business, selecting and setting up the best hardware and software for your specific needs can be a daunting task.

## at work

### We increase profits...

As a small to medium sized business, maximizing the productivity of your staff is essential to increasing profits. We make your existing technology coupled with new hardware and software applications work to maximize productivity while minimizing operational costs.

We offer the best, certified service and support in Northern California with fast same day response and competitive rates. As a Matrix Computer Solutions client, you will have access to our support line should you have any technical questions.
